

Pipe Layer

Carolina Infrastructure and Development is currently accepting resumes for a highly motivated construction professional to join our team as a Pipe Layer in Columbia SC. We are a general contractor serving residential and commercial construction clients.

JOB REQUIREMENTS

- The Pipe Layer position requires manual labor as well as assisting other trades to the extent necessary with hands-on work.
- Must be physically fit to perform manual labor in all types of environments and conditions, including heavy lifting (in excess of 50 lbs.). Must be able to follow plans and instructions from supervisors, lay out the job, and work efficiently with the materials and tools of their trade such as grade rods, pipe laser or transit levels.
- Pipe Layer is to lay and join concrete, plastic, or cast-iron pipe for drains, sewers, and water mains. This includes rigging pipe for hoisting, setting pipe to grade and affixing the pipe joint.
- Prepare and grade the trenches either manually or by communicating with onsite equipment operators. Performs all duties associated with laying pipe, working with other members of the construction crew to successfully complete projects within specifications and in a quality manner to meet or exceed customer expectations.
- Position reports to Pipe Crew Foreman.
